## Portable Computer: EXCLUSIVE to Dick Smith Electronics

Simply brilliant! That's the all-new Bondwell 14 portable personal computer. Small wonder it has become one of America's top-selling computers in just a few short months – and now the same thing is happening here in Australia.

It's everything you've ever wanted in a computer and much, much more besides: small enough to go anywhere with you, yet large enough to do virtually any computing job.

This incredibly powerful personal portable operates from the world-standard CP/M system: which means there will always be an incredibly large range of software available for it. For virtually any purpose.

That's if you **ever ever need** any other software: the Bondwell 14 comes with over \$1200 worth of top quality business software (including Wordstar word processing!).

### Look at what else you get:

- Twin double density, double sided disk drives inbuilt (360K capacity each)
- 9in amber screen inbuilt – for minimum glare and fatigue
- Standard parallel and twin RS-232C interfaces inbuilt
- 16 user definable keys for incredibly easy use
- CP/M version 3.0 including a host of utility software – even a SPEECH synthesiser (it can read to you in English!)
