

# Medfly can tax your mind, mind your tax, and let you play in space.

The Medfly home computer is compatible with the largest library of software available today. What this opens up to you and your family is simply amazing. For your children — education packages on Algebra, Spelling, Mathematics, Vocabulary — making your Medfly virtually a home coach or tutor.

For personal and business use — get access to Time Management, Business Systems, Accounting Packages and Financial Broadsheets. For family entertainment — you'll be able to share the fun of Action Games, Strategy Games and Adventure Games, which you can plug straight in to your home TV screen.

Medfly is a thinking machine to expand young minds; a working machine for home or business accounting; a games machine for family fun. And above all, Medfly is a value machine, with quality electronics by Siemens and with more features, capabilities and add-on potential than many costlier microcomputers.

The basic Medfly microcomputer system — alpha/numeric keyboard and processor — is available now for just \$1,995 including sales tax.
